

API-Documentation

Base Path: <http://api.tudu:8080/>

Date: 09.11.2022

Description

User stories are translated into the API.

Path Definition

Paths are structured by endpoint type (get, post, delete and put) followed by what it returns. A dynamic

Endpoints

get

path	name	description	issue#id	status
/get_active_tudus				
/get_inactive_tudus				
/get_all_tudus				
/get_tudu/{tudu_id}/detail			TUDU-13	
/get_groups			TUDU-02	
/get_group/{group_id}			TUDU-02	
/get_group/{group_id}/tudus				
/get_tags				

post

path	name	description	issue#id	status

delete

path	name	description	issue#id	status

put

path	name	description	issue#id	status

old

/login

/logout

/get_todos

GET

/get_todos/{category}

GET

/create_todo

POST

/delete_todo

DELETE

/update_todo

PUT
